

Story 2: Tyrannosaurs were good parents

What do we know about *T-Rex's* parenting?

故事二：暴龙是好家长 霸王龙是怎样的家长？

No one has ever found a fossil of a *T-Rex* egg or baby, and this means that scientists have to guess what kind of parent *T-Rex* was. Like most animals, *T-Rex* was probably a good parent.

没有人发现过霸王龙蛋或小霸王龙化石。科学家只能推测霸王龙是怎样的家长。也许霸王龙跟其他普遍的动物一样，都是好家长。

Complete the sentences below to show why this could have been so.

试完成以下句子，以说明这个可能性是成立的。

1. They probably made a nest to protect their eggs and keep them warm.

牠们可能会建巢保护蛋和为蛋保暖。

This shows they were good parents because...

这证明牠们是好家长因为...

What do we know about *T-Rex's* parenting? 霸王龙是怎样的家长？

2. They looked after their young as soon as they were born.

小霸王龙一出生，霸王龙会一直悉心照顾牠们。

This shows they were good parents because...

这证明牠们是好家长因为...

3. Do you know of any animals today who looked after their young in a similar way to *T-Rex*?

你知道有那些动物会好像霸王龙一样，悉心照顾自己的小宝宝吗？

Dino Fact!

Tyrannosaurs were not completely scaly, they had feathers that looked similar to your hair!

恐龙冷知识！

暴龙的身体并不完全是鳞片，牠们有羽毛，看上去类似于你的头发！
